**DETAILED ACTION**

1. Claims 1-3 have been cancelled.
2. Claims 4-9 are pending.

***Response to Arguments***

3. Applicant's arguments filed 02 February 2007 have been fully considered and they are persuasive.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 4-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. The terminology "unequivocally assigned" and "unequivocal assignment" is unclear and vague to the Examiner. According to the dictionary, the terminology "unequivocal" is defined as absolute, certain, direct, obvious, or unmistakable. The terminology "unequivocal" has not been clearly defined or have support within the Applicant's specification. Furthermore, the terminology "unequivocal" is defined as a negative connotation, which will present a further issue for purposes of an allowance.

Therefore, it is suggested by the Examiner, that the terminology be removed or the Applicant show support within the specification without changing the scope of the present invention.

Appropriate correction is required.

***Allowable Subject Matter***

7. Claims 4 and 7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
